
Two Caldwell Men Going to Idaho Prison

Two Caldwell men were sentenced today to not more than 14 years in the state penitentiary by Judge Hugh A. Baker for forgery. In both instances the men had been charged with forging checks to the checks by the two men. The signatures were fictitious. One check given by John Parley and the other by the Twin Falls Bank and Trust company was for \$36.50. The check was signed by J. M. Carlson, 1217 Seventh avenue north, seventh avenue north extends only four blocks.

A check signed with the name Clifford C. Jarvis, 1214 Tyler street, was given Alexander Clothing store by Darrell Leon, 1214 Tyler street. It is a dead-end street ending in the 300 block.

The two men were arrested by city police and later pleaded guilty of forgery.

Another criminal action in district court Friday included a plea of guilty by Benny J. Kimbrell, 1214 Tyler street, to first degree burglary. Sentencing was set Oct. 4.

Kindred was apprehended by city police last Saturday morning as a result of a police stake-out at the Red-Rock cafe in the vicinity of the intersection of Main and 10th streets. He was arrested by Judge Baker until Oct. 21. He pleaded guilty Monday and a pre-arrest investigation was scheduled for Friday. He was scheduled for sentencing on Friday but his bond was returned from \$500 to \$100 and the sentencing date set.

Death Claims

C. E. Keating

Clarence E. Keating, resident of Magic Valley for 46 years, died Saturday morning at Magic Valley Memorial hospital at the age of 76. Born in Wisconsin, May 8, 1881, Mr. Keating came to Magic Valley in 1905 and farmed in the Jerome area until 1944 when he moved to Twin Falls. He was preceded in death by his wife, Mrs. Martha Louise Keating, in Twin Falls in November, 1952. He was a member of St. Edward's Catholic church. Surviving are three daughters, Mrs. Thomas Pflanz and Mrs. Vernon Peterson, both Minneapolis, Minn.; and Mrs. Harold Savage, Murtaugh; one son, LaVerne J. Keating, 2714 N. 4th, three sisters, Mrs. Virginia Olson, Sumner, Wash., and Mrs. Lillian Arnold and Marian Keating, both Tacoma, Wash., four grandchildren and two great grandchildren. Funeral services will be announced by White mortuary.

Rotarians Meet

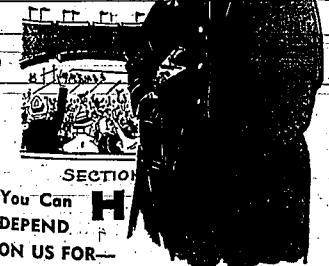

Buhl, Sept. 21—George Warberg led the Buhl Rotary club about his year in Finland at their meeting Thursday noon in the B and B cafe. Visiting Rotarian was Dr. David McCluskey president of the Twin Falls club.

CALIFORNIA VISIT
SHOSHONE, Sept. 21—Julius Knorr, Ventura, Calif., is visiting Mrs. Sophia Leithner and other relatives.

Missile Squadron to Be Organized

The force announced Sept. 18 that its first intercontinental missile squadron, using jet-propelled photo Snark missiles, pictured above, will be expanded and ready to operate before the end of this year. In the photo the Snark rests on its launching pad. To lower right, the missile's powerful rocket boosters ignite and the speed-of-sound Snark is about to be airborne. (AP wirephoto)

Valley Resident Dies at Age of 67

KIMBERLY, Sept. 21—Mrs. Louise P. Hansen, Kimberly, died Friday evening at Magic Valley Memorial hospital. She was 67.

Born in Huntington, Utah, Oct. 29, 1889, she had lived in Twin Falls county five years and in Kimberly two years. Her husband, Chester Hansen, preceded her in death in 1952. She was a member of the LDS church.

Surviving are five sons, Edwin Hansen, Rupert, Lon Hansen, Burley, Glen Hansen, Blackfoot, Clyde Hansen, Payette, and Carl Hansen, Sumnerville, Ore.; three daughters, Mrs. Ernest Hoos, Elkhart, Ind.; Mrs. May Howard, Hansen, and Neola Hansen, Kimberly; two brothers, Frank Drollinger, Phoenix, Ariz., and Alfonso Drollinger, Citrus Heights, Calif.; one sister, Mrs. Thelma Hooper, Boise, 36 grandchildren and seven great grandchildren.

Funeral services will be conducted at 10 a. m. Tuesday in the Kimberly LDS church by Bishop Floyd Olson. Friends may call at the White mortuary until 9 p. m. Monday. Concluding services will be at Ashton with dedication of the grave planned for 3 p. m. Tuesday.

QUAKE REPORTED

OROVILLE, South Africa, Sept. 21 (AP)—An earth tremor shook walls, roofs and windows in Capetown early yesterday and brought frightened people running out of their homes. It lasted 17 seconds.

Plant Tulips, Hyacinths, Fall Bulbs now. Globe Seed Co.

Class Officers Are Picked at Hailey School

HAILEY, Sept. 21—Officers of the Junior high school were elected this week. They are Lee Rice, president; David Stevens, vice president; and Merry Waller, secretary-treasurer. Class leaders are Sue Peterson and Jane Powell.

The seventh grade elected David Stevens president, Larry Allred vice president, Susan Stephens secretary, Sherill Boudelle treasurer, Gordon Larson first sergeant-at-arms, Merry Waller, reporter, and Dorothy Smith, librarian.

Sixth grade officers for the year are Norma Broyles, president; Larry Blawie, vice president; Julia Ann Hall, secretary; Marcia Werry, treasurer; Norey Ridgeway, Donald Board and Nickle Werry, librarians; Shirley Adams and Mike Grace, Sergeant-at-arms; Dianne Hauser, interior decorator; Don McCoy, custodian, and Don Board, buffer.

Fifth grade officers for the first six-week period are Sarah Jones, president; Nola Montgomery, vice president; Julie Zachary, secretary; Susan Allred, hostess; Harry Thompson, Glenda McWilliams and Mary Brock, librarians; Jo Ann Young, gardener; John Astorquia, Ronald Rumm, Ronald McWilliams, Jack Krenz, Bill Schlunegger and John Powell, monitors.

Eighth grade officers have not yet been elected.

VISITING BROTHER
SHOSHONE, Sept. 21—Mr. and Mrs. Aaron Stowell, Redwood City, Calif., have been visiting his brother, P. N. Stowell, and family.

Develops Cold Vaccine

Dr. Winston H. Price, 34-year-old Johns Hopkins scientist shown at work in his laboratory, says he has developed an effective vaccine for the common cold. He claims he has isolated the first "true" virus of the common cold and that he has developed a vaccine which, in controlled tests on more than 400 persons, prevented colds caused by the virus in 85 per cent of the cases. Immunity is produced from two shots of the vaccine, the second following the first by four weeks. Dr. Price said. (AP wirephoto)

Rites Held

Funeral services for Marko Carl Van Wenen, infant son of Mr. and Mrs. Carl Van Wenen, Salt Lake City, were held at 2 p. m. Saturday at the Twin Falls mortuary chapel by Vicar Walter Pieper.

Mrs. Stanley Phillips was organist. Concluding services were held at Sunset Memorial park.

Egg consumption in the United States has risen 44 per cent since before World war I.

New Reactor Used at Arco

WASHINGTON, Sept. 21 (Special)—The organic moderated reactor experiment, developed for the atomic energy commission by Atomic International, a division of Northern American Aviation, has been placed in operation at the national reactor testing station at Arco, Ida.

Operation of the reactor, a new type which is part of AEC's program for development of nuclear power for civilian uses, began when it was achieving a neutron flux of 10¹⁴ per sq. cm. The reactor, known as the OMRE, is the first of its type to go into operation. It uses a carbon-hydrogen compound for the dual role of moderator and coolant.

About 16,000 kilowatts of heat will be produced when full power is reached, AEC said. However, it added, present plans won't call for the conversion of the heat into electricity.

Two Minor Fires Reported in T.F.

Two minor fires were reported to the Twin Falls fire department early Saturday.

Mrs. Edward Benoit, 403 Allura drive, reported a lot of smoke in her house at 2:40 a. m. Police rushed to the scene and shut off the furnace. The fire department was called to remove smoke from the house.

Earlier, firemen made two runs to 202 Alexander street where a fire had started in the home of T. A. Ash. Firemen reported the fire started around the stove pipe but there was no extensive damage.

Miles of safety! Fully warm! Penney's smart boots come in 8 top fashion colors. Cotton lined. Nylon Dynel collar hidden zipper.

Library Busy Tallying Fall List of Books

Arthur L. DeVolder, city library director, says the library has added numerous new titles in general fiction, western, mystery, science fiction, history, golf, animal breeding and others.

Fiction leads the field with books by many old favorites. "Amends," Bunker, is a strange story of a ghost who brings happiness to those who love: "The World of Carrick's Cove," a novel of the early days of settlement in North Western written in the form of a memoir; "The God Boy," Cross, a boy has a feud with God; "The Poisoned Crown," Brunson, a sequel to "The Strangled Queen"; a series on the Kings of France; "The Return of Quinlan Ache," Kirst, the third of a series on a German runner; and "The Voyagers," Van Ameringen, a story of the early American frontier.

An interesting "who-dun-it" is "Apprentice Talks Again" by James H. Western. Fans will be happy with a new Zane Grey tale "The Trail." Two other westerns are "Grand Mesa," Elston and "The Hell Bent Kid," Locke.

In the space-fiction field there is a wide selection led by "Angels and Spacehips," Brown; "Earthman's Burden," Brown; "Space Lawyer," Schachner and "The Deep Ranger," Clarke.

For the young people's collection there are two selections "Doctor in Medication," Lindsay and "The Island of Horses," Dillon.

Non-fiction titles should have a wide appeal for a variety of readers. For housewives there is "Time To Speak Up," Butler, a speaker's handbook for women; farmers, "Breeding and Improvement of Farm Animals," Rice and others of importance. Persons interested in mysticism will enjoy an analysis of D. T. Suzuki's book "Mysticism: Christian and Buddhist," giving an analysis of the eastern and western aspects.

"Study Is Hard Work," Armstrong, tells how to acquire correct habits and skills for permanent advancement; while women will be pleased with "Twelve Company," Dinnery, Riemann.

Other non-fiction items include "Tales of Experience," Brittain, a biographical sketch of 25 years in an author's life; "The Pope," First teachings of Pope Pius XII; "First Lessons of the Modern Fundamentals of Golf," Hogan; "Massacre," Sprague, the tragedy at White River, Colorado; "Wild Animals of the World," Baker, an illustrated and well documented book; and "Matthew Brady," Horan, story of the historian with a camera.

Who's Driving?

CHICAGO, Sept. 21 (U-A)—Police dismissed charges against Robert Regilio, 19, after he explained he had no control over his speeding car.

Regilio said he fell asleep in the car and awoke to find two men and two women in the auto with police in hot pursuit.

HIGH-SPEED ROCKET
LONDON, Sept. 21 (U-A)—A Soviet scientist claimed today Russia has a ballistic rocket that might take passengers from Moscow to New York in about half an hour.

COLUMBIA of Youth... out of the cost of polished LAMALINE, richly sculptured by trapunto... Youthmore designed it provocatively, from demure shirtwaist collar to freewinging side pleats... and you'll love its opulence for many a season. Sizes 6-16 in Black, Red, Beige, Taupe.

Leaders Plan for Boy Scout Fund Drive

John Agerbauer, left, community chairman for the campaign to raise funds for the Boy Scout program in Twin Falls, has a pre-solicitation conference with Earl Haroldson, residential solicitation chairman, and Joseph McCallum, right, wholesale and warehouse committee chairman. The three are making plans for the Snake River council, which will coincide with the drive throughout the entire area covered by the Snake River council. (Staff photo-entourage)

\$40,000 Goal Set for Funds Campaign For Snake River Council, Boy Scouts

The annual Boy Scout fund campaign to provide money for Scout work and activities will start Tuesday in Twin Falls. The goal this year of the Snake River Council, which covers a major part of Magic Valley, has been set at \$40,000.

"First plans" for the Twin Falls district and city drives were completed this week. John Agerbauer, Twin Falls, is community chairman. John Roper, Twin Falls, has been named district chairman with Dr. Joseph Marshall, Twin Falls, head of the Snake River Council finance committee.

Business and professional leaders throughout Magic Valley are participating in the campaign. Dr. George Scholer, Twin Falls, is president of the Snake River Council.

The Snake River council is composed of Twin Falls, Buhl, Wood River, Cassia and Minidoka districts.

In Twin Falls, a special leadership committee will "go into" action Tuesday. Headed by Lee Fillmore, the committee will contact city leaders and others for donations to set the pace for the campaign.

Officially, the drive will begin on Oct. 1 in the downtown, business and warehouse district of the city. A residential drive will be launched later in October.

Earl Haroldson, Twin Falls, is residential solicitation chairman.

Hailey Rotary Club Fete Set

HAILEY, Sept. 21—The 20th anniversary of the Hailey Rotary club will be celebrated Thursday with a party. It was announced at the club's regular luncheon this week.

Joseph W. Paul, who is in charge of preparations for the event, said Sen. Henry C. Dworshak, who was district governor and installed the Hailey club when it was organized, will be the principal speaker. The Shoshone club, which sponsored the Hailey club, and the Ketchum-Sun Valley and Arco clubs, which were sponsored by the local club, are being invited to attend.

Visiting Rotarians at this week's meeting were John Henry Foster and George Kuehlman, Ketchum-Sun Valley; Hayden Henderson, Elko, Nev.; and Doran H. Sulphur, Goodline, Roy Hill, Inghamwood, Calif., was a guest with Sulphur. Neil Summers, Twin Falls, was the guest of honor.

Grant Hawkes was in charge of the program. Emory Dietrich, Hailey high school football coach, and Bob Evans, captain, spoke on the team's activity.

NOY HAN SURGERY

HANSEN, Sept. 21—Everett Hansen, son of Mr. and Mrs. Charles Hansen, had an operation on his eye this week at Portland, Ore., where he went to see a specialist. Word has been received by his parents that he is doing well after the operation.

bers of the council campaign committee serve as the faculty for training local leaders.

The entire district campaign was set up for seven distinct steps or phases.

Starting with the council finance committee, selecting the council campaign chairman, the plan moved to step two which consisted of a campaign meeting. At this meeting representatives of industry, agriculture, business and professions were present.

During meetings plans for step three were made and executed with the selection of the campaign steering committee. The duties of this committee are to plan and administer the council campaign, determine policies and select subcommittees.

Step four consisted of laying out each community campaign and the selection of community campaign leaders. From there on the formation of various community committees and local plans for the drive were determined.

Speak at Sun Valley

DR. WILLIAM A. EDWARDS and DR. ROBERT L. BRENNAN, who will be two of the top speakers when the 10th annual conference of the American Society of Plastic Surgeons meets at Sun Valley, Sept. 21, 22 and 23. Dr. Edwards, Reno, will speak on foot surgery, and Dr. Brennan, Los Angeles, mobilization of the human body. Another speaker, Dr. C. H. Radphal, San Francisco, will talk on modern education of a chiropodist. Dr. Gordon Tobin, Twin Falls, helping with arrangements for the meeting, says about 60 delegates are expected. In addition to the scientific program, there will be entertainment, banquet and barbecue. (Staff engravings)

Timeless

NORTON, Va., Sept. 21 (U-A)—A third who stole 200 watches from a salesman doesn't have time on his hands.

The watches were dummies with no inlays.

REPARATION PLANNED

TOKYO, Sept. 21 (U-A)—Japan's ambassador to Moscow suggested today that Russia plans to reparate 312 persons to Japan from Soviet-held southern Sakhalin early next month.

First American to enter Paris in the liberation of 1944 was Sgt. Lawrence S. Kelly.

Officers Selected By Area Grange

HANSEN, Sept. 21—Earl Hansen was elected master at the regular meeting of the Grange members Thursday evening in the Grange hall.

High Sanderson was elected overseer; Mrs. J. L. Barnes, lecturer; Don Dietz, steward; Maurice Capp, assistant steward; Mrs. Peter Sanderson, chaplain; Kenneth Hayle, treasurer; Mrs. Hugh Sanderson, secretary; John Bohas, gatekeeper; Mrs. Earl Barnes, Ceres; Mrs. John Schab, Pomona; Mrs. Thelma Laycock, Pioneers; Mrs. Maurice Capp, assistant steward; Mrs. Don Dietz, executive committee, and Mrs. Clarence Hofford, home economist.

A potluck dinner preceded the election.

More than \$200 in prize money was received from the produce and chili booth and other flower exhibit at the Twin Falls county fair. It was reported by the fair committee.

Plans were made for "board night" to be held the last of October.

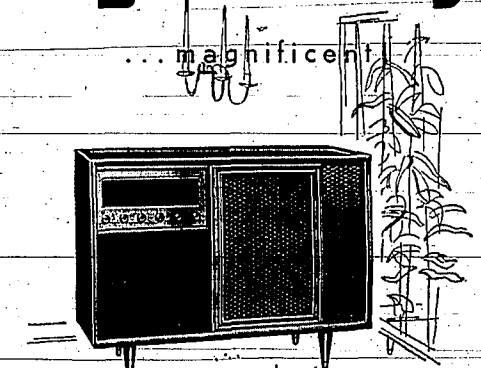

PTA BOARD TO MEET

HANSEN, Sept. 21—Members of the PTA executive board will meet at 8 p.m. Monday at the school library. Plans will be made for the teachers' reception.

Youths Take Top Honors for Hogs, Lambs at Fat Stock Sale in Twin Falls

Tom Steen, Buhl, poses with his grand champion lamb and John Ingalls, who purchased the animal at the Twin Falls 4-H FFA fat stock sale Saturday. Steen's animal was top money winner and Ingalls paid the boy \$115. A 10-year-old son of Mr. and Mrs. George Atkins, he is in the fifth grade at the Buhl Lincoln school. He is also a member of the Fairview Farmers and Farmerettes 4-H club. The sale saw more than 100 livestock projects sold for more than \$47,000. (Staff photo-engraving)

Ted Florence, right, a representative of the Independent Meat company, inspects the grand champion quality hog which he purchased at the 4-H FFA fat stock sale Saturday. The animal belongs to Robert Bonar, Buhl, left. Bonar is a son of Mr. and Mrs. Fred Bonar, Buhl, and a member of the Clear Lake 4-H club. Bonar also was judged grand champion in the fitting and showing contest held at the Twin Falls county fair. He received \$150 for his 200-pound Yorkshire hog. (Staff photo-engraving)

U.S. Awaits Peace Overtures From Syria to Ease Tensions

WASHINGTON, Sept. 21 (U.S. Press)—American officials said any formal moves to improve U. S.-Syrian relations will have to come first from Syria.

This attitude apparently reflected the tough stand Secretary of State Dulles took in his United Nations speech last Thursday. The speech denouncing Russian intervention in the Middle East and declaring Syria's buildup of Soviet bloc armaments "Turkey and her other neighbors—already has aroused angry outbursts in Syria."

Elsewhere in the Arab world, leaders friendly to America are reportedly concerned at the seeming hardening of U. S.-Syrian relations on a plane of ill feeling. They also are reported confused by recent Dulles statements which alternately blow hot and cold on the Syrian situation.

Jawad Murti, Syria's U. N. delegate, denied in New York that his country had any intention of harming its neighbors. Other Arab delegates questioned whether the present U. S. line might serve only to drive Syria closer to Moscow.

In Damascus, Syria's acting Defense Minister, Khalid, Assad, charged the United States two days ago to make direct contact with the government to smooth out their difficulties. He said U. S. warships could call at Syrian ports just as Soviet naval units are doing.

But American officials said no response is planned to anything short of an official approach. They said Assad appeared to be speaking only for himself, not the government, and has issued many conflicting statements recently.

It was Assad who paved the way for Soviet aid and trade agreements during a trip he made to Moscow.

A month ago, after pro-Soviet forces seized control in Syria, U. S.-Syrian relations hit rock bottom. Three American officials were expelled from Damascus and two Syrian officials, including the ambassador, were ordered by the U. S. government to leave Washington.

The American ambassador, home on leave, never went back to Damascus. The U. S. embassy there is in charge of a lesser official, Robert C. Strong.

Idaho Potatoes, Onions Get Publicity Through Displays, Samples and Present to Texas Governor at Convention of Shippers

"Facts about the Idaho potato" were told by this display at the Dallas convention of the Texas Citrus and Vegetable Growers and Shippers last Monday, Tuesday and Wednesday. Legend on left portion of display reads: "Irrigated with pure mountain water in a perfect growing climate." On the right, appears: "Grown in volcanic mineral soil insures high percentage of solids, rich in vitamins, delicious." Lights in the volcano in right portion made it appear lava was running down slope. (Staff engraving)

Joe Marshall, right, presents unusual-shaped box of Idaho potatoes to Price Daniel, governor of Texas, on behalf of Idaho Gov. Robert Smylie. Marshall, known nationally as Idaho Potato King, is the remaining charter member of the Idaho advertising commission. Wherever he goes, the 83-year-old potato expert prides Idaho's famed spuds and obtains returns of publicity for "the best potato in the world." (Staff engraving)

Convention visitors had no doubt of the fine quality of Idaho potatoes when french-fried. This portion of exhibit provided french-fried potatoes to visitors and proclaimed, "Idaho, finest potato in the nation." (Staff engraving)

Miners Saved As Cage Falls

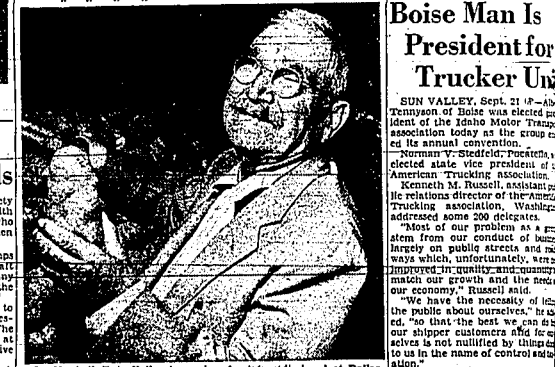

DETROIT, Sept. 21 (AP)—A safety device was credited today with saving the lives of six men who fell 200 feet down a mine shaft when a hoist cable snapped.

The device was a set of clamps installed in the 1,200-foot deep shaft of the International Salt Company mine in the downriver area near the Ford Rouge plant.

A cage carrying the men back to the surface plunged downward yesterday when a cable snapped. The safety clamps stopped the fall at the 900-foot level but it took five hours to complete the rescue.

None of the workers was injured, despite their harrowing experience.

Arkansas leads the nation in the production of red gum, oak and hickory lumber.

Joe Marshall, Twin Falls, shows size of potatoes displayed at Dallas convention. He took 5,500 pounds of potatoes and 600 pounds of onions to Dallas for exhibit and samples. Potatoes and onions were all grown by Idaho growers. After the convention, potatoes and onions from the Idaho display were presented to Jack Bryant, manager of the Dallas Variety club, sponsors of Boys Ranch. (Staff engraving)

Boise Man Is President for Trucker Union

SUN VALLEY, Sept. 21 (AP)—Albion Tennyson of Boise was elected president of the Idaho Motor Transporters association today at the group's annual convention.

Norman V. Stedfeld, Pocatello, was elected state vice president of the American Trucking association.

Kenneth M. Russell, assistant to the relations director of the American Trucking association, Washington, addressed some 200 delegates.

"Most of our problems as a system from our conduct of business largely on public streets and highways which, unfortunately, were improved in quality and quantity match our growth and the needs of our economy," Russell said.

"We have the necessity of informing the public about ourselves," he added, "so that the best we can do as shipper customers and for ourselves is not nullified by things that we do in the name of control and action."

COP C MEETING SET—SHOSHONE, Sept. 21—The Chamber of Commerce will meet at 12 p.m. Tuesday at the Manhattan.

Mayor Is Chosen For West Berlin

BERLIN, Sept. 21 (AP)—Social Democrat Willy Brandt, president of the West Berlin city assembly, was in line today for the job of lord mayor of West Berlin.

The governing committee of the Social Democratic party, which has a majority in the assembly, nominated Brandt for the post yesterday. The party is scheduled to convene Sept. 30 to approve the selection for the post vacant since former Mayor Otto Suhr died Aug. 31.

Sugar Expert Praising Beet Industry Job

DENVER, Sept. 21—Idaho beet sugar producers, along with others in the U. S. beet sugar industry, were lauded here yesterday by Under Secretary of Agriculture True D. Moore for holding the line against world sugar market fluctuations resulting from recent international developments.

In an address prepared for delivery to members of the Denver Beet Sugar Association, Moore said he was impressed by the beet sugar industry's ability to maintain the manner in which it has placed on it as a result of the unusual and unexpected circumstances which have existed since the fall of 1959.

The circumstances to which he referred were the fact that the beet sugar industry had increased production and shipped supplies in the world sugar market.

The number two man in the agriculture department said that while the world sugar market fluctuates, the domestic American consumer has enjoyed a relatively stable market. This he attributed both to the ability of the domestic beet sugar industry and to operation of the sugar act, national law which regulates the production and marketing of all sugar in this country.

The stability which has been enjoyed in the domestic sugar market, Moore said, is due to the fact that during the postwar period (since World War II) the range between high and low monthly prices each year has been nearly twice as great in the world market as in the domestic market.

"During 1956 and the first seven months of 1957," he added, "the range has been nearly three times as great in the world market as in the domestic market."

Moore said that every American family is benefited by the U. S. sugar program — "every kid who gets on an ice cream cone or candy bar, the older folks who put sugar in their coffee or on their breakfast food."

The under secretary said that even greater stability in the American market has been assured under agreements to the sugar not passed last year, pointing out that additional sugar supplies now needed in this country each year can, under the agreements, be obtained from domestic production areas rather than from foreign areas, as was formerly the case.

Moore said that the American beet sugar industry has been able to keep it because of its steady progress in pace with changing demands upon the nation on the farm and the tremendous strides recently made in increased yields per acre of its non-sugar agricultural commodity.

The official, under whose direct supervision the sugar act is administered, emphasized that benefits derived from the U. S. sugar program not only by the housewife, but also by the industrial user who finds that sugar is a food and non-food items requiring sugar, and the domestic sugar producer.

South American Student Welcomed

Enrique Salinas, Bolso Junior college graduate from Bolivia, is welcomed to the Alpha Phi sorority house at the University of Idaho by Shirley Trow, Mountain Home, center, and Patricia Rees, Kimberly, sorority president. Miss Salinas has been awarded a board and room scholarship by the sorority. (University of Idaho photo-staff courtesy)

Sorority Aids International Relations With Scholarship

UNIVERSITY OF IDAHO, Moscow, Sept. 21—In the interests of international relations, a board and room scholarship has been awarded by the Alpha Phi sorority to Enrique Salinas, Bolso Junior college graduate from Bolivia, it was announced today by Patricia Rees, Kimberly, president of the sorority.

Since World War II, various fraternities and sororities at the university have been providing such scholarships for foreign students to that they "will have an opportunity to know the countries represented by the scholarship winners."

To help make possible the completion of Miss Salinas' college studies at the university, she also was awarded a scholarship by the Statesman Newspapers, Boise.

Frank Babcock Is Paid Final Honor

Regimen mass was celebrated for Frank Babcock Saturday morning by the Rt. Rev. Mgr. J. P. O'Toole at St. Edward's Catholic church. Rosary for Mr. Babcock was recited Thursday evening at the White monastery.

Funeral services were held at the Twin Falls cemetery.

Concluding services were at the Twin Falls cemetery.

LEGAL ADVERTISEMENTS

NOTICE IS HEREBY GIVEN that the undersigned, as the personal representative of the estate of the late Frank Babcock, deceased, has filed in the County of Blaine, Idaho, a true and correct copy of the will of said deceased, and that said will is on file in the County of Blaine, Idaho, for the purpose of giving notice to all persons claiming an interest in the estate of said deceased, to file their claims in the County of Blaine, Idaho, within the time specified in said will.

Dated this 17th day of September, 1967.

National Guard Units to Get Missiles, Say Defense Bosses

BALT LAKE CITY, Sept. 21—Two high officials indicated today that both air and army national guard units will be converted to missiles, but he hinted at such plans in two parts of his prepared remarks.

The officials were Franklin L. Orth, deputy assistant secretary of the army, and Lieut. Gen. Joseph H. Atkinson, commander of the air defense command.

Orth addressed an afternoon session of the Utah National Guard Association. Gen. Atkinson made his remarks in an address prepared for an evening meeting of the organization.

Gen. Atkinson said "my command is studying the possibility of using the air national guard to operate many of the BOMARC installations."

Orth hinted that among army national guard changes will be conversion of artillery units to the handling of missiles.

"In his prepared text, Gen. Atkinson also promised that the 191st fighter intercept squadron of the Utah air national guard and the 120th squadron from Denver "will be getting BOMARC and P-680 fighters within the next 12 months."

If nothing upsets present planning, Orth did not positively say that national guard units will be converted to missiles, but he hinted at such plans in two parts of his prepared remarks. At one point he said: "There is every reason to believe that missiles will someday become an important part of our army national guard artillery units."

At another point he said: "A California army national guard antiaircraft artillery unit has been converted to Nike missiles. We have that many other similar army national guard units will be converted to missiles in the near future. It is well within the realm of possibility that some day the national guard will be a major component in the missile defense of this nation."

A major portion of the Utah army national guard is made up of artillery units.

Haitians Set For Election Of President

PORT AU PRINCE, Haiti, Sept. 21—Haiti's heated presidential and congressional election campaign ended last night as the ruling three-man military junta changed a tight lid on all vote-getting activity.

The junta ordered a halt to campaigning to give the voters a 36-hour breather before going to the polls tomorrow to elect a president, 21 senators and 31 members of the chamber of deputies.

The military trio which has ruled this politically divided nation since June also announced it will take control of all interior telephone and other communications facilities tomorrow to prevent their use in stirring up possible disorder.

Gas Sales Banned

The military chiefs barred the sale of gasoline and other explosive fluids from noon today through tomorrow to avert their possible use in any violence.

Brig. Gen. Antonio Kereau, army chief of staff and junta head, pledged the armed forces will guarantee free and honest elections. Haiti's 250,000-man army already has been alerted and 3,000 reservists are to be called up if violence breaks out.

Three Candidates

The presidential post is being sought by three men. They are Louis Delvalle, a former senator; Dr. Francois Duvalier and Clement Jumeille. Another candidate, Daniel Pignole, was exiled to New York June 14.

Pignole, who had a large following among the masses, was acting president at the time he was sent from the country. Other candidates charged he was using the office to strengthen his bid to be elected. Trouble mounted, and the junta took control.

Games of Bridge Played at Jerome

JEROME, Sept. 21—Masterpoint games were played by the Jerome Duplicate Bridge Club which met at 1 p.m. Saturday in the Jerome Elks lodge.

North and south winners were Mrs. Warren Kays and Mrs. O. W. Outler, first; Mrs. Bob Weaver and Mrs. Bob Peterson and Mrs. Jerry Cover and Mrs. H. Miller Proctor tied for second and third.

Guests were Mrs. Clyde Stroughton, Mrs. Rote Slater and Mrs. John Moore, all Twin Falls.

CRASH KILLS FIVE

BELLINGHAM, England, Sept. 21—A Royal Air Force training plane crashed near here early today killing five men aboard.

Bail Lowered For Six Reds

DENVER, Sept. 21—Six of seven convicted communists won their fight for lower bail bonds yesterday. Federal Judge Lee Knapp approved reductions totaling \$500.

The bond of Mrs. Mala Scherer of Detroit, the lowest at \$500, was not reduced.

Their 1954 conviction on two counts of conspiracy was recently reversed by the 10th U. S. circuit court of appeals, although the court upheld conviction on one count. That the seven had actively plotted to overthrow the U. S. government, grounds that they should not have been charged with continuing organization of the U. S. communist party. The court said the party was organized at the close of World War II; hence the three-year statute of limitations had run out.

BRUINS THUP IDAHO FALLS 13 TO 0 IN BIG SIX LOOP OPENER

John Ulrich, Mike Stowe Spark Twin Falls Offense In Penalty-Marred Contest

Mike Stowe provided the touchdown runs and John Ulrich some timely distance running as the Twin Falls Bruins opened their 1937 Big Six conference schedule with a lulling 13-0 victory over Idaho Falls Tigers Friday night. Although handicapped by numerous penalties, the Bruins controlled the game well, Idaho Falls mounting only one serious scoring threat.

Sold Out
NEW YORK, Sept. 21 (AP)—If you didn't get your request for tickets to the World Series games at Yankee stadium on the first day of the sale, you're out of luck.
The Yankees announced last night they already have stopped accepting ticket orders—less than 24 hours after the sale opened.

Fumbles Send Murtaugh Past Carey 26-0

CAREY, Sept. 21—Murtaugh's Red Devils turned two first quarter fumbles by Carey into touchdowns and went on from there to notch a 26-0 victory Friday afternoon.
Andrew Ward powered through the Carey line from five yards out for the first Murtaugh score and minutes later a Carey fumble recovered by the winners on the 10-yard line set the stage for D-Right to scamper around end and the second tally. Frank Olson converted both extra points.
Ward got through for another touchdown in the second quarter, making it 20-0 at halftime. Ward came back again shortly after the third period opened and went into the endzone from eight yards out for the final score of the game.
Carey battled back in the fourth period as L. Dillworth began connecting on passes to Everett Perry and Tony Albrechten. The final gun found the Panthers on the Red Devil 30-yard line.
Ward, Denton and Bates turned in good performances for Murtaugh.

Wolves Rally In Last Half To Tip Hansen

HANSEN, Sept. 21—After holding off Castleford's Wolves through the first half, the winners Hansen Huskies went down to their third defeat here Friday 20-0.
Almost even in the first half, the Wolves got their offense rolling in the third period on Swanson picking up two touchdowns for the winners. He got the first on a line plugging and notched the second by sweeping end. Bob Johnson scored on a 10-yard run in the fourth quarter, accounting for one of the extra points and Buewe added the second.
Hansen was unable to mount a serious threat until late in the first quarter. A sustained march had put the ball on the Castleford eight-yard line, before time ran out.
Both teams stuck to the ground for their yardage.

Flip-Flop Ending

Jim Packard of Indianapolis, Ind., driving an Ed Lowther Offenhauser sprint car at the Fair, Reading, Pa., Sept. 15, hits outside rail and flips over in midair while preparing for a qualifying heat in race there. The driver was unhurt but the car was eliminated from competition. Driver in No. 3 car is Johnny Thomson of Boyertown, Pa. (AP wirephoto)

3 Backs Carry Wendell Past Kimberly 39-0

WENDELL, Sept. 21—The Wendell team notched their second straight win here Friday night, routing past the Kimberly Bulldogs 39-0 on the offensive work of Jerry Stevenson, Jim Carroll and Bill Zell.
Stevenson, Jim Carroll and Bill Zell, the winners, accounting for three of the Trojan scores. He was the first one in the opening period, stalling off back for five yards and he followed that up by converting the extra point. Carroll got the second Wendell touchdown, going inside tackle, shaking off the secondary and racing for 40 yards. Shortly before that quarter ended, Stevenson broke loose again, this time taking a pitch out and carrying 35 yards for the second point.
In the third quarter it was Stevenson again, this time for the final 20 yards of a short march and John Weaver, using a quarterback sneak, notched the final Trojan touchdown, in the fourth quarter.
Kimberly threatened once, moving

Burley Nips Gooding On Last-Minute Pass

GOODING, Sept. 21—A 40 yard pass play in the final 30 seconds robbed the Gooding Senators of the lead they had held throughout the game and the Burley Bobcats went home with a 27-25 win and a share of the Cross State Series first place. Down six points with the half minute left, Roger Wilson found his favorite target, and Don Peterson, with a long pass and Peterson stepped into the end zone to clinch the win. It was the same passing combination that brought the Bobcats into striking distance of the Senators earlier in the period.
Gooding started the scoring parade in the first quarter when Ray Gibson sneaked in from a yard out. Then in the second period, Mary Harding plowed his way into the end-zone from four yards out and Ron Hill converted for the extra point.
In the meantime, Burley had notched one touchdown in each of the first two periods, but never did catch up. Gary Chigewere lifted the Bobcats' lead again in the third period, scoring from the two-yard line and, that was all, the scoring in that period. They posted their final touchdown in the final quarter with Harding capping a drive by going for the final five yards.
But then Wilson got underway and that was the game. The Bobcat quarterback also accounted for the second period tally again on a pass play.
The win kept the Bobcats decorated for the conference spot with the "Iron" Tigers who were defeated 30-0. Each team now has three wins against no losses. It was the second league loss for the Senators in three games.

Dodgers Refuse New York Offer; Move Imminent

NEW YORK, Sept. 21 (AP)—Los Angeles has the Dodgers in the bag and the official announcement of the move of the franchise will be made on the final day of the season Sept. 22, an authoritative source told The Associated Press Saturday.
"Only one minor obstacle stands in the way and that is the 'midweek' the source said.
"The official announcement will be made on the final day of the season although the National League probably will be notified several days before."
The Dodgers must notify the league before Oct. 1 on their decision to move the club from Ebbets field to the city of the Angels.
The Dodgers, as usual, declined to make any comment. But a New York City official had some cause for the Dodgers' move.
"O'Malley knew all along he was going to Los Angeles," said William Peck, executive secretary to Mayor Robert Wagner. "He just wanted to lay the blame on the city of the city."
The Dodgers apparently thumbed down New York Friday when O'Malley rejected the latest financing proposal by millionaire Nelson Rockefeller.
"It's too rich for my blood," said O'Malley.
Thus the storied Brooks were all set to make the transcontinental journey next year from old Ebbets field to the 300 acres of Chavez Ravine, an area of rolling grass covered hills within a mile of City Hall.
Under this deal with Los Angeles, O'Malley will turn over to that city the one-block square Wrigley field, the Pacific Coast League park for which the Dodgers paid about two million dollars last spring. O'Malley and Los Angeles will share the oil and mineral rights of Chavez Ravine.
Rockefeller had offered first to buy the stadium for \$10 million and then to lease it for 25 years. The offer to lease for 25 years was rejected by the Dodgers. The offer to buy for \$10 million was also rejected. The offer to lease for 25 years was also rejected. The offer to buy for \$10 million was also rejected.

Raft River Is 13-6 Winner Over Bellevue

BELLEVUE, Sept. 21—Raft River Trojans struck for two touchdowns in the opening minutes of play and then fought off Bellevue for a 22-win here Friday afternoon.
The visiting Trojans took the lead in the first period on a short pass play that culminated a rushing drive. Then shortly after the second quarter opened, they put together another march that resulted in touchdowns.
With their scoring behind them, the Trojans turned to defense in the first period. They held off Bellevue's offense. Then, in the second quarter, Jack O'Donnell broke loose at midfield and raced all the way for Bellevue's only score.
Neither team could gain an advantage in the second half.

Jerome Romps Past Malad For 39-0 Win

MALAD, Sept. 21—Jerome topped Malad 39-0 Friday night in their third straight Cross-State conference victory, keeping the Trojans in a tie for first place with Burley.
Jerome thoroughly outclassed Malad and ran up 21 first downs, four for the home team. Thence 68 yards, Ron Kuhn 28 yards and Larry Silver 87 yards to the leading ground gainer for winners.
The Trojans led no doubt from early minutes of the game about outcome. They scored three times in the first period. The first touchdown on an 18-yard pass play by Bud Small to Morris Thibault. Then four yards for the second score and Silver clinched with a yard and the third TD.
After a scoreless second half, Jerome scored twice in the second period. The first touchdown on an 18-yard pass play by Bud Small to Morris Thibault. Then four yards for the second score and Silver clinched with a yard and the third TD.
After a scoreless second half, Jerome scored twice in the second period. The first touchdown on an 18-yard pass play by Bud Small to Morris Thibault. Then four yards for the second score and Silver clinched with a yard and the third TD.

T. F. Man Wins Promotion in Embassy Service for Taiwan

Dr. Ralph L. Powell, son of Mrs. Milton L. Powell and the late Milton L. Powell, Twin Falls, has been promoted to counselor of embassy for public affairs. He is currently director of the United States information service, Taiwan.

After graduating from Twin Falls high school in 1933, Dr. Powell was educated at the University of Idaho Southern Branch, University of California, California college, in China and Harvard university. During World War II, Dr. Powell served as a U. S. marine corps major.

Later he was a member of the faculty at Princeton university. Before proceeding to Taiwan last year, Dr. Powell served as a professor and Far Eastern specialist at the national war college.

Dr. Powell will return this week to Washington for 60 days. Dr. Powell has been appointed a member of the promotion panel of the United States information agency. Prior to their return to Taiwan, Dr. and Mrs. Powell may visit Twin Falls.

DR. RALPH L. POWELL

Fines Are Levied By Rupert Court

RUPERT, Sept. 21—Justice of the Peace William Stuart this week fined Merrill Pasley, Rupert, \$13 and costs for failing to have an Idaho driver's license. Robert L. Simpson, Rupert, paid \$20 and costs, and Patricia Wallace, Rupert, paid \$5 and costs, on similar charges.

Doris Adams and Delores J. Wright, both Rupert, and A. W. Schmehel, Jerome, were each fined \$5 and costs for driving on expired licenses.

John Priest, Burley, was fined \$40 and costs for having fictitious plates on a vehicle. James W. Holm, Burley, paid \$50 and costs for doing commercial hauling on a farm license. Jim Burns, Burley, was fined \$20 and costs for having inadequate equipment on a truck. Jerry Miller, Rupert, was fined \$10 and costs for having no mud flap. Donald A. Nuasbaum, Rupert, paid \$10 and costs on a second offense of driving with a noisy muffler. Nancy Vincent, Rupert, was fined \$5 and costs for having no driver's license. Dennis Burley, Rupert, and Bob Beagles, Burley, failed to appear on charges of driving without a driver's license.

Officers Chosen By Bliss Grange

BLISS, Sept. 21—Grange officers were elected at the regular meeting in the Grange hall, conducted by Frank Lenker, master. New officers are Harold Hainline, master; Harvey Shirk, overseer; Mrs. Kenneth Johnston, lecturer; Frank Steven, steward; Mrs. Robert Butler, lady assistant steward; Mrs. Nita Butler, chaplain; Mrs. Arthur Daniels, Pomona; Mrs. Harold Butler, Flora; and Frank Lenker, executive committee.

Death of Former Farmer Reported

Word was received in Twin Falls Saturday of the death of Jay R. Williams, early resident of the Salmon tract, at his home in Eagle Point, Ore. Mr. Williams died Friday.

For several years Mr. Williams farmed on the Salmon tract when it was first opened. For the past several summers he has returned to the county to visit his brother, Alton W. Williams, near Twin Falls. Funeral services will be held Monday at Eagle Point.

NEW CLOSING HOURS
SALLY, Sept. 21—Business houses in Hallett have been open Saturday night until 8 p.m. during the summer months will close at 5 p.m. beginning Oct. 5.

Carnival Planned

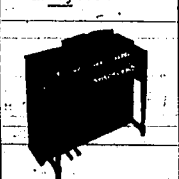

BLISS, Sept. 21—Plans are being made for the annual high school carnival next Friday. Each class will have some part of the concessions, raffle booths, games and refreshment stands.

The PTA will have a makeup booth attended by Mrs. C. L. Burges and Mrs. Aldrich Dwyer, and a white elephant booth with Mrs. F. Anderson and Mrs. Bob Butler in charge.

Eastern Lincoln County Desert Becoming Farms

Ray Matheson, left, who operates Howland and Matheson farms with his brother, Roy, explains the troubles a pioneer farmer faces as he attempts to convert scrubby desert into crops. Listening to Matheson's appeal for an improved road from the brothers' Senter Lake farm to Shoshone, the Lincoln county seat, is Assessor Ray E. Oser. (Staff photo-engraving)

his acreages to individuals and retain the water rights, won. A few months later he died in a Utah traffic accident. Today, Jullion Clawson Farms, Inc., owns but a hundred-odd acres of his original purchase.

After the dwindling acreage of the pioneer Clawson had been split up, a "hustling, go-getter," Ralph McQuain, Rupert, seems to have as much land as any, according to

originally in 1916, was improved by the owner's son, William Cash, for his mother, Mrs. H. C. White. Rented to Anderson last year, it is irrigated by gravity from a 300-foot well. (Staff photo-engraving)

New Uniform, New Way of Life

State Patrolman S. D. (Scottie) Luckert, wearing the type of uniform he changed into in 1955, examines the uniform he wore for more than 20 years while serving in the navy. Retiring as a chief petty officer after "seeing the world" for 20 years, Luckert discarded his navy blue to return to Idaho where he had served as a navy recruiter in Twin Falls. Here, he donned a new uniform and a new way of life. (Staff photo-engraving)

After 20 Years in Navy, T.F. Resident Is Now Wearing Uniform of State Police

Most men retiring after 20 years of uniformed life would hesitate to accept a job which required wearing anything but a pair of dungarees or at most a civilian business suit. Such is not true of S. D. (Scottie) Luckert, 1105 Byrdway drive, who retired from the navy in 1955 and later joined the Idaho state police. Luckert was happy with Idaho and especially Twin Falls, when he was stationed here as a navy recruiter from January, 1940, until February, 1955. Before retiring at Newport, R. I., in 1955, after 20 years in the service, he considered so places where he thought he would like to settle. One was Florida and the other Idaho. He chose the latter after applying for and passing the necessary examination for a job with the state's fish and game department.

When he arrived in Idaho he found he had to wait for an opening with the fish and game department. Not content to sit and wait, he decided to apply for a job with the state police. He was accepted and for the next two years spent his time at the Hottelator post of entry station. In June, he was promoted to the roving patrol and operator from Twin Falls.

Luckert joined the navy in 1935 after being encouraged to do so by his father, who was then in the navy. He says his father enthusiastically encouraged several young men to join the navy then served only one "itch" himself before returning to new assignment with the roving

patrol which he found to be a fireman.

Patrolman Luckert has no ill feelings toward his father for taking him into joining the navy. Still a relatively young man, he has a guaranteed income for life and is fully capable of supplementing his retirement pay with a civilian job.

As a chief petty officer in the navy, Luckert saw most of the world during his 20 years of service. His first ship was the Garatoga. Later he served aboard destroyers before the war. During World War II he spent five years aboard P-T boats in both the Atlantic and Pacific.

In 1944, he came to Twin Falls. As a torpedoman he served in the Korean war aboard destroyers again. His last three years were spent at the navy's torpedo school at Newport, R. I.

Luckert, who was born and raised in Missouri, said his reasons were numerous for deciding upon Idaho as a place to retire.

"Besides liking the climate and the people whom he met while stationed here, he said he thought this would be a good part of the country to raise his two children. Another reason, he wanted to do "lots of hunting and fishing."

He says he is fully happy with his retirement life even though his present job has placed him in another uniform and has somewhat changed his "dear to do" list of hunting and fishing. "He hopes his

new assignment with the roving

patrol will permit him some time off for hunting this fall although he went fishing only twice during the past season.

Does he miss the life he lived for 20 years in the navy? He says he occasionally likes to reminisce about the past. He says he misses the traveling he did in the navy, "but I like this life, too."

"I liked the navy," he says, "and I definitely like my present job. He says he wants to remain in Twin Falls for a long time."

Russia Makes Determined Bid To Overtake U.S. Technology

By The Associated Press
Less than a month ago, the Soviet government announced it had successfully tested an intercontinental ballistic missile—well ahead of the United States.

Just a few weeks ago, the Soviet Union—as if to show off the new prowess even more—flew its United States personnel to the United States in its jet airplane, the TU-16.

These two developments are the latest in a long, remarkable calendar of scientific events from the Soviet Union. They constitute a bid to surpass the United States—in its reputation at least—as the world's most advanced power in the fields of science, engineering and technology.

On Aug. 20, 1953, the Soviet government announced it had exploded a hydrogen bomb. The U. S. government confirmed the report. The atomic-energy commission had set off the first U. S. hydrogen bomb.

On June 30, 1954, the Soviet Union announced the opening of the world's first atom-powered electric power plant.

In March 1955, the Soviet Union flew its TU-16 to London, then to the plane into commercial passenger service.

In April 1957, the Russians put into operation near Moscow the largest atom-smashing machine in the world.

All of these events are concrete expressions of Soviet technological progress. They demonstrate that the United States, which has long prided itself on its science, engineering and technology, no longer rules unchallenged in these fields.

To many westerners, Russia has always seemed backward in the technological sciences.

In part, they were right. And, in part, this is still the case. Some branches of Soviet economy, including certain sectors of industry, are backward compared with the West. But other actions— including in particular those most important to military might—are extremely advanced.

The Russian achievements did not come about overnight. They came from many long years of effort.

They go back beyond the Bolshevik revolution of 1917. In a sense, all of Russian history for the last three or four centuries is a story of a continued and intense effort to catch up with the West.

Russia, before the revolution, was by no means barren of great scientists or technological development. When the communists came into power from the very first they emphasized and re-emphasized scientific and engineering training and industrial development.

They built up numbers of new schools to train technological personnel and these schools and new standards.

Before World War I the Russian empire had 100,000 specialists with higher or special technological education occupied in its economy.

By 1941, just before World War II, the number had grown to 240,000; by 1956 it was 550,000.

All of this was gained at tremendous cost to the Soviet people and the world.

Bill Herbst, Prop.

their standard of living. Nevertheless, the sacrifices bore fruit. In the 1930s there was a rising production curve in all Soviet basic industries, secured still more in World War II.

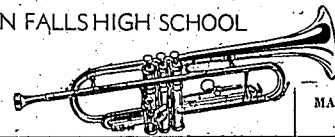

After producing such outstanding wartime weapons as the T-34 tank and the Katyusha rocket, Stalin turned the entire Soviet economy to the basic task—catching up with the United States in military weapons and technological skill.

The Soviet first began to hit the scientific jackpot in the late 1940s. Now she has achieved a basic equality in techniques with the most advanced countries of the world—the United States in particular.

And it is likely the scientific technological surpluses from Russia have only just started. Out to gain world dominance in these fields—the Russian—soon-on-scientific has become something to reckon with.

worth of radiators ruined each year!

MAJOR CAUSE: RUST!

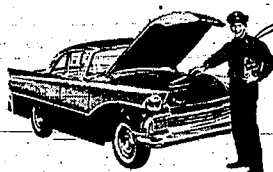

SAVE YOUR RADIATOR WITH "PRESTONE" ANTI-FREEZE, THE BRAND WITH MAGNETIC FILM!

Don't let rust and corrosion rob your pocketbook. Have your dealer put in "Prestone" anti-freeze—the anti-freeze with Magnetic Film.

Magnetic Film, developed in the laboratories of UNION CARBIDE, immediately coats all the surfaces of your cooling system. It protects all winter long—and is equally effective in guarding each one of the seven kinds of metal commonly found in a cooling system.

This year—be sure to get the extra protection of Magnetic Film by insisting on "Prestone" brand anti-freeze!

The **GREEN TAG**, attached to your radiator by your dealer, proves you have "Prestone" anti-freeze and not a substitute! For your own protection, be sure to look for the Green Tag as soon as your anti-freeze is installed. The "Prestone" anti-freeze guarantee is printed on the tag.

Installing anti-freeze in the modern car can be a difficult task. Have your dealer, an expert, do the job.

PROTECT WITH PRESTONE ANTI-FREEZE

Statue Shipped Here From Italy and Bible Opened to 23rd Psalm Are Park Improvements

One of many new developments at Sunset Memorial park is a seven-foot statue of Christ, which has been set in a natural stone foundation surrounded by flower beds. (Staff photo-Engraving)

VISITORS REPORTED—At the home of Mr. and Mrs. Fred Hagerman, Sept. 21—Visitors: Roberts, Monday through Wednesday, were her parents, Mr. and Mrs. Joe Jones of Tracer, Ia. Mrs. W. E. Lant, Meridian, and Mr. and Mrs. Jones of Mrs. Roberts' aunt.

R. L. Harney, manager of the Sunset Memorial park inspects a six-foot statue of Christ shipped from Italy especially for the park. It weighs 1,450 pounds and was erected in the Valleyview section of the cemetery. (Staff photo-Engraving)

Life-Size Statue and Bronze Plaque To Be Dedicated at Park Next Sunday

A life-size statue of Jesus Christ and a bronze plaque depicting the LDS temple in Salt Lake City will be dedicated in separate ceremonies at Sunset Memorial park next Sunday.

The dedication of the statue will be done by the Rev. W. A. MacArthur, Twin Falls Methodist church, and the Rev. Ralph Wiley, pastor of the Valley Christian church. The ceremony will take place at 4 p.m.

The LDS plaque dedication will take place at 1 p.m. and will be headed by T. Lynn Schenk, president of the Twin Falls stake of the LDS church.

Street Work Done

Work on city streets was begun this week.

There are 18 blocks to be sealed. Aslett Construction company, Twin Falls, had equipment in the area and the city council took advantage of the opportunity to get the work done while the company was here.

Four thousand gallons of oil were used in the job. The gravel for the job was in the city stockpile.

The Christ statue, located in the Valleyview section of the cemetery, was received last fall. It weighs 1,450 pounds and is hand-carved from carna marble. It was one year in the making. The statue received its final area landscaping last spring.

The LDS temple plaque is the most recently completed of improvement projects undertaken by Sunset Memorial park. It is cast bronze, with a raised outline of the Salt Lake City temple surrounded by clouds. The plaque is embedded in a natural rock foundation and weighs more than 40 pounds.

Truckers Fined

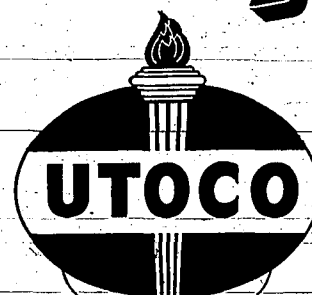

KING HILL, Sept. 21—Justice of the Peace Lynn Sherman has fined five truckers on charges of hauling overweight loads.

They are John Warren, Burley, \$15 and \$3 costs; Dewey Sanders, Ft. Worth, Tex., \$14.50 and \$3 costs; Donald Macpherson, Boise, \$10 and \$3 costs; Lois District, Piler, \$36.50 and \$3 costs; and Harold Duke, Lubbock, Tex., \$10 and \$3 costs.

Judge Sherman also has fined Clyde McCre, Caldwell, \$3 and \$3 costs on a charge of driving on an expired driving license and Gilbert Compton, Nampa, \$5 and \$3 costs on a charge of failure to stop at the King Hill port of entry.

Test Section of Atom-Blast Tower Erected Here After Precision Work Completed by Twin Falls Plant

Signs Clark operates lathe to cut steel beams all to same, exact margin at top of 300-foot structure. Towers presently being built will be used in atom blast tests next year or for further tests in Nevada. (Staff photo-Engraving)

Kenneth Self of the Self Manufacturing company, right, and Everett Ahlrich, inspector from Los Angeles, look at 25-foot section of steel tower erected near Self plant as a test. Self explains that precision work is needed on sections of tower because of the 300 and 200-foot heights. Tower is put together in 25-foot lengths and has been used in atom blast tests at heights of 300 and 200 feet. This section should be only one-sixth as high as the shortest tower used in a blast. (Staff photo-Engraving)

lower, with the exception of the top platform for the A-bomb, which over 62 tons.

Thorbeck says he doesn't know where the towers will be erected but says they are being shipped to Oakland, Calif., and in Mercury, Nev. When the sections are passed by the inspector they are painted yellow and given an approval stamp.

One leg of each 300-foot tower is equipped with a 200-foot steel ladder and a safety basket at various levels. The test section of the 25-foot tower was done by Sifalloy and Wirsching. It was allowed to remain standing for a few days for testing and inspection and then dismantled.

The fact that 40 employees contribute hundreds of hours on one project which will disappear in a split second on the detonation of a nuclear device makes no difference in the precision quality of their work.

Twin Falls Company Keeps 40 Workers Busy Building Towers for Atomic Tests

A Twin Falls company is still tower was 50 feet, from one-sixth to one-tenth the actual height of the tower when the A-bomb is finally placed on the top.

The work on the seven towers runs eight hours a day, six days a week under the supervision of Homer Brandy, shop foreman, and Neil Wirsching, yard foreman, and a government inspector, Everett Ahlrich, Los Angeles.

Laver Thorbeck, plant manager, says all work must be as nearly perfect as a man and machine can make it. "We work to exact tolerance," all steel used must meet rigid inspections and the finished product come up to American Institute Steel Construction specifications. (Times-News photo-Engraving)

Garage Burns

TRACEMAN, Sept. 21 — The garage and workshop belonging to Riley Boyer here was destroyed by fire Friday afternoon. Paul's wiring has been blamed for the blaze.

The garage contained a number of mechanical tools and other equipment and Boyer estimates the loss at \$1,200. The fire was discovered at 2 p.m. The alarm was the first to be answered in the village by the new fire truck which was delivered about two weeks ago.

SPEAKING OF Furniture

HOW TO ACHIEVE UNITY

Beauty, whether it be in a garden, the kind of line, color and texture that fine painting or the interior of a home, is composed of two elements: unity and variety. In decorating and furnishing your home strive to achieve unity first, then introduce variety to inject interest and vigor.

Unity is created by one, or a combination, of two methods: dominance and repetition.

Dominance produces unity by making one of the component elements the center of interest. Variety grouping, the center of interest, gives secondary importance to everything else.

Repetition achieves unity by repeating style, line, color and texture. The use of pairs of pieces of furniture and accessories is an excellent example of this.

In the room sketched above the sofa, which is the dominant piece, has been given dominant importance. The style of the chair, table, and to a large degree suggests

Outstanding United States Navy Band Slates Two Concerts in T. F. Saturday

The United States Navy band, one of the outstanding bands in the nation, will present concerts at Twin Falls high school at 8 p. m. and 10 p. m. next Saturday. The band's appearance here is being sponsored by the student body of Twin Falls high school.

On inauguration day, March 4, President Calvin Coolidge signed a special act of congress which designated the United States Navy band as the "United States Navy Band." Along with the new official status, the traditional sea-green uniform of the sailor was discarded in favor of the uniform of the chief petty officer.

During the fall of 1925, the band departed from the pattern of music or official Washington alone and made what was to be its first annual concert tour. Since then, the band has played in hundreds of cities, all the states in the Union, Canada, Alaska, Puerto Rico, Panama, Jamaica, Haiti and the Virgin Islands.

The band traditionally appears at military services for many years in Washington cemetery when in Washington. However, most of its duties are of a more enjoyable nature. It is

he was 15 years old. He was assigned to the USS Florida with a rating of "handyman for musicians" at a pay of \$7.16 per month. He played the clarinet.

Commander Brendler has reached

LIEUT. HAROLD FULTZ
Assistant Conductor

the top so far as navy music is concerned. He was promoted to lieutenant commander in 1947 and a special act of congress in 1953 gave him permanent rank of commander, higher rank than ever achieved by any other musician in the regular navy.

In 1917, he was transferred to the Navy band to fill a clarinet vacancy. He was a member of the organization when its designation was changed in 1925 and was advanced to assistant conductor in 1937.

Pulling out his history of "growing up" with the Navy band, Brendler was appointed conductor in 1941. Commander Brendler has a doctor of music degree and is the only honorary member of the White House Correspondents' club. He is a member of the National Press club with yearly assignment to the entertainment committee and the Variety club of Washington. He is an active member of the American Bandmasters' association of which he was vice president in 1954-55.

The commander's belief that the band should make personal appearances for the people of the U. S. is largely responsible for the annual tours, with the present tour, who enlisted in the navy when

both spring and fall tours to some section of the nation. The commander conducts part of the matinee concert and all of the evening concert.

Assistant conductor of the multi-

class is Lieut. Harold Fultz, who

became a lieutenant July 2, 1955, with

assignment as assistant conductor.

He was born Sept. 22, 1917, in Buck-

ingham, W. Va., and has studied music

since he was in grade school. He

played cornet and trumpet in his

high school band and was first

trumpet in the West Virginia state

high school orchestra. He at-

tended West Virginia Wesleyan col-

lege where he was a member of the

band.

Lieutenant Fultz entered the navy

with the assignment to the U. S.

naval school of music in 1935, the

year the school was founded, and

was graduated in the top 10 per cent

of the first graduating band.

In November, 1935, Fultz went

aboard the USS Indianapolis with

unit band No. 1 for the trip with

anything goes right. Zetty started

plano lessons at the age of 8.

Zetty was accepted for the new

U. S. navy school of music in 1935

when the school was first started.

After a year in the school, he saw

much of the world from navy ships

but, transferred to the Navy band

in 1939.

Gordon Zetty, talented cornet

soloist, is termed one of the most in-

dispensable men in the organiza-

tion. He is a former personnel man-

ager of the band.

Finlay was born in Corvallis, Ore.,

graduated from Oregon State col-

lege and did graduate work at the

University of Oregon and University

of Idaho. He was music supervisor

of public schools at Salem, Ore., be-

fore being accepted for the Navy

band in September, 1941.

William Cameron, harp soloist, is

an authority on the music and his-

tory of the harp. He started piano

lessons at the age of 12, but never

became too good. His mother took

him to a music store in search of a

flute, but he spotted an Irish harp

and has been playing the harp ever

since. He now owns nine Irish harps

and has built a room in his house

for them.

President Roosevelt to the Pan

American conference. He transferred

to the USS Pennsylvania, flag-

ship of the commander in chief,

U. S. fleet, in December, 1936, and

remained on the ship until Febru-

ary, 1937. He was assistant con-

ductor and cornetist with the Jack-

sonville, Fla., naval air station band

from 1941 to 1944.

His assignments included con-

ductor of the band which accompanied

President Truman to the Potsdam

conference. As a result of the as-

signments, he received a medal of

commendation and was recommended

for advancement to chief warrant

officer and later ensign.

He served at the U. S. naval school

of music in Washington, D. C., and

was bandmaster of the naval train-

ing center band in San Diego.

The assistant conductor has pub-

lished several compositions, includ-

ing "American Sailor March," "Navy

Parade," "A Gypsy's Fiddle Dreams,"

"De Capo, Mexicanos and Swingin'

Along."

Most member of the band is Ar-

lington Zetty, who plays the light-

est instrument—the piccolo. He is

also personnel manager of the or-

ganization, a duty to see that ev-

erything goes right.

Zetty started piano lessons at the age of 8.

Zetty was accepted for the new

U. S. navy school of music in 1935

when the school was first started.

After a year in the school, he saw

much of the world from navy ships

but, transferred to the Navy band

in 1939.

Gordon Zetty, talented cornet

soloist, is termed one of the most in-

dispensable men in the organiza-

tion. He is a former personnel man-

ager of the band.

Finlay was born in Corvallis, Ore.,

graduated from Oregon State col-

lege and did graduate work at the

University of Oregon and University

of Idaho. He was music supervisor

of public schools at Salem, Ore., be-

fore being accepted for the Navy

band in September, 1941.

William Cameron, harp soloist, is

an authority on the music and his-

tory of the harp. He started piano

lessons at the age of 12, but never

became too good. His mother took

him to a music store in search of a

flute, but he spotted an Irish harp

and has been playing the harp ever

since. He now owns nine Irish harps

and has built a room in his house

for them.

with a ceiling high enough to do

justice to the tones of the instru-

ment.

Mary Spaulding, bass drummer, is

a native of New York. He donated

navy blues in 1942 shortly after the

beginning of World war II.

Spaulding saw action aboard the

USS Vincennes in Puerto Rico, Cal-

ifornia, Samoa, Fiji Islands, Loy-

alty, group and New Zealand in

1944 he was ordered to the U. S.

navy band in Washington, D. C.

Ben Mitchell Morris is tenor vo-

calist with the United States Navy

band. He will be featured vocalist

for the evening concert. Morris was

born in Seattle and moved to Hou-

ston, Tex., with his family when 5

years old. He attended the Washing-

ton University of Washington.

Morris studied voice in San Diego

for two years, San Francisco for a

year. He has studied under na-

tionally known teachers.

Frank Scimone will be fea-

tured in playing the unique English

post horn, a small copper instrument

with no valve-producing notes other

than those of the harmonic series.

He was graduated from Central and

Oliver schools at Winnet, Conn.,

Ernest Williams School of Music,

New York, and Catholic college of

Catholic university, Wash-

ington, D. C. He was soloist for the

Klamm Temple band in 1929 at

New York's world fair, played with

the Goldman band, Hartford sym-

phony and other bands in New

England and New York. He joined

the Navy band in 1940.

Lawrence Wiehe is trombone so-

loist with the band. A native of

Centralia, Ill., he has played since

the band was organized.

Richard Groves is clarinetist,

saxophonist and vocalist. A native

of Springfield, O., he has been in

the navy since he was 20. He at-

tended the navy music school for

a year, played with the band for

four years and then returned to

Washington to join the Navy band.

Charles M. Tregler, violin soloist,

made his formal debut on the violin

at the age of 15. He was first violin-

ist and soloist for three years

with the Detroit Symphony. He has

played more than 450 concerts in

the U. S. and Canada and received

the Rockfeller grant in 1937. He

has been with the Navy band since

August, 1935.

Tickets for the two Saturday con-

certs are on sale at the high school.

Richard Groves is clarinetist,

saxophonist and vocalist. A native

of Springfield, O., he has been in

the navy since he was 20. He at-

tended the navy music school for

a year, played with the band for

four years and then returned to

Washington to join the Navy band.

Tests in Nevada Desert Seek Data to Aid Atomic Survival

Atomic shelters, a new design whose low cost and easy construction would adapt it to mass production, were tested at the Operation Plumbbob atomic tests in Nevada at pressures from 20 to 70 times those which are normally built to withstand. The 50-foot-diameter shelters may be seen before the blast in the upper photo. The lower photo shows one of the domes which was deliberately tested at a pressure so great that it would fail, so its weaker points could be studied.

Steel shelters, a new design whose low cost and easy construction would adapt it to mass production, were tested at the Operation Plumbbob atomic tests in Nevada at pressures from 20 to 70 times those which are normally built to withstand. The 50-foot-diameter shelters may be seen before the blast in the upper photo. The lower photo shows one of the domes which was deliberately tested at a pressure so great that it would fail, so its weaker points could be studied.

Steel shelters, a new design whose low cost and easy construction would adapt it to mass production, were tested at the Operation Plumbbob atomic tests in Nevada at pressures from 20 to 70 times those which are normally built to withstand. The 50-foot-diameter shelters may be seen before the blast in the upper photo. The lower photo shows one of the domes which was deliberately tested at a pressure so great that it would fail, so its weaker points could be studied.

20th Century "Ghost-Town" on Nevada Desert Used in Tests

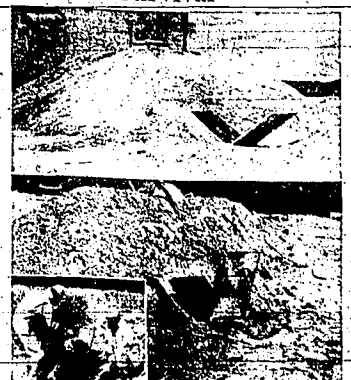

The Nevada desert, site of many atomic tests, is being used as a "ghost town" for the present and future. And yet it is one of the most important and most beautiful areas in the country. The desert is being used for atomic tests, and the results of these tests will be used to help build a better world.

GRADUATION SET

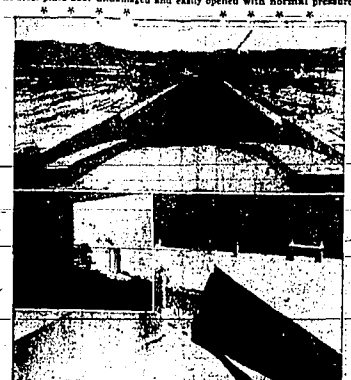

GRADUATION SET for the 1957-58 school year will be held at the Idaho Falls school of nursing, 1000 S. Broadway, on Monday, September 23, at 8 p. m. Monday.

There's No Substitute For Experience in DENTAL PLATE SERVICE

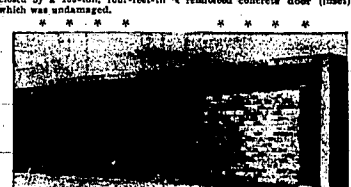

McDOW'S DENTAL LAB (Opposite Idaho Theater) 21 S. Broadway - Ph. 602

Home shelter of reinforced concrete (top) at the Operation Plumbbob atomic tests in Nevada withstood a blast pressure of some 65 pounds per square inch (bottom) with damage only to vent pipes (the average house can withstand a pressure of about one pound per square inch). The shelter, which could accommodate about six persons, was covered with fire and one-third feet of earth for near-complete protection against initial radiation in blast area. When specially-dressed radiological monitors (inset) entered the area after the A-bomb, they found the steel plate door undamaged and easily opened with normal pressure.

Auto entrance ramp burrowed inconspicuously into the desert as it leads down to a dual-purpose underground shelter and garage at the Operation Plumbbob atomic tests in Nevada. Lower photo shows how the A-bomb blast crumpled part of the concrete retaining wall but failed to block the entrance. To the right of the crumpled wall is the entrance, closed by a 100-ton, four-foot-thick reinforced concrete door (inset), which was undamaged.

Effects of steel reinforcement are shown clearly in these wall panels tested under high pressure during the current atomic tests in Nevada. The eight-inch thick and five wall or the same thickness were reinforced with quarter-inch steel rods, and survived the atomic blast. Inset: A 25 by 25-foot windowless brick structure, adaptable as a school or utility shelter, also was undamaged even though it was exposed to blast pressures five times those for which a house is normally built.

Over, whose assessment books tell the tale.

McQuinn, a "young fellow with a crew cut who never wears a coat?"
On the western end of the Klamath tract, reports the assessor, "I don't know who owns the place, but it is 5359 Over," but it seems that every time he finds a piece of sagebrush, the Rupert man is one of several who have built a substantial house on the place, and he has a "place, near the corral and south place," overlooking the deep swell he calls "the deep." The irrigation water for Klamath is drawn from wells with lifts ranging from 10 to 150 feet.
Ward, who farms south of Tustin Falls, has 320 acres of Klamath water, and he has a large system of his well, drilled on a knoll to lower the water level, down to the level of the river. Access to the Klamath river is by a bridge, and the highway district, which is owned by Paul, Ward's neighbor, John W. Mendenhall, has a pumping system line a 125-foot well.

Potato Conveyor Wins Award

Michael Kleinkepf, Mariang, a graduate of the Twin Falls high school, shows the portable and adjustable potato conveyor he made last year while a senior in the vocational agriculture department at this

high school. The conveyor won a \$50 award for placing fifth in the 1936-37 national awarding program for high school students. (Staff engraving)

Murtaugh Youth Wins Award By Building Potato Conveyor

Michael Kleinkepf, son of Mr. and Mrs. Justin Kleinkepf, Murtaugh, not only made a portable and adjustable potato conveyor for his father's farm chaper than he could have purchased it but won a prize while he was doing it.

Kleinkepf, even though he lives in Murtaugh, attended Twin Falls high school, graduating last June. For four years he studied agriculture at the high school and last year put his knowledge to work. The upshot of his efforts was the potato conveyor and a potato bulk bed for his father's two and one-half ton truck.

Kleinkepf's vocational agriculture instructor, John Lawrence, entered the potato conveyor in the 1936-37 awarding contest sponsored by the Junior-Lincoln-Vocational Foundation, Chicago, and the conveyor won fifth place and an award of \$50.

Lawrence said the total cost of

Economic System Discussion Is Set

The Twin Falls Chamber of Commerce announced Friday it will sponsor a series of economic discussion groups to study the United States economic system.

The groups will meet at 7:30 p.m. Tuesday at the American Legion hall auxiliary room.

A. P. Nelson, president of the chamber, said the groups are being held to aid the individual to better understand the system and protect it.

He pointed out that local chambers all over the nation have been organizing discussion groups of 15 to 25 persons of executive and professional level.
